

Client: Bank of Tokyo Mitsubishi

Location: Stratford

Sector: Finance

Project value: £300,000

Project: Disaster Recovery Trading Centre – Cam Road

## Brief

We were asked by our client, Bank of Tokyo Mitsubishi, to convert a vacant office building into a state of the art disaster recovery centre.

## Action

To meet our client's requirements we installed a 750Kva generator which, along with three 300Kva UPS systems, would provide N+1 resilience to back up the client's critical infrastructure in the event of a power outage. The works included general electrical services comprising of LV switchgear, PDU infrastructure, general lighting and small power; all provided to our client's specification.

## Outcome

The job was completed over a six month programme, with JCA Electrical delivering a high quality installation within the required time frame and budget.
